

**SAY NO!!!! DENY THE APPLICATION**

We the undersigned are asking the Zoning Board of Appeals to DENY the Comprehensive permit to build a Cluster Development of 136 units on the top of Shingle Place Hill. Shingle Place Hill is a wooded Sanctuary, surrounded by conservation land, wetlands and a source of our drinking water. The Development Proposed by SLV ( Strategic Land Ventures) and currently in front of the ZBA has many **RED FLAGS** that should not be overlooked and validate the denial of the permit. Please see the reasons below and sign!

- Catastrophic destruction to Shingle Place Hill by clearing acres of trees and excessive blasting.
- Irreversible damage to the surrounding conservation land, wetlands, natural wildlife habitats and contamination to our **DRINKING WATER!**
- **19 Waivers** ( a clear indicator this is a bogus project) have been requested by the developer to **bypass our local bylaws** that protect the very intact environmental integrity of our Town.
- 800 additional passes of traffic will pass on School street, a walking and biking route to the Town, schools, parks and beach.
- Traffic study shows **this project will exacerbate traffic congestion and strain the Town.**
- Single entry access to the site and development poses major safety issues.
- This project is **unsuitable in size, location, intention** and will forever change this small coastal Town.

**SAY NO!!!! DENY THE APPLICATION**

- Catastrophic destruction to Shingle Place Hill by clearing acres of trees and excessive blasting.
- Irreversible damage to the surrounding conservation land, wetlands, natural wildlife habitats and contamination to our **DRINKING WATER!**
- **19 Waivers** ( a clear indicator this is a bogus project) have been requested by the developer to **bypass our local bylaws** that protect the very intact environmental integrity of our Town.
- 800 additional passes of traffic will pass on School street, a walking and biking route to the Town, schools, parks and beach.
- Traffic study shows **this project will exacerbate traffic congestion and strain the Town.**
- Single entry access to the site and development poses major safety issues.
- This project is **unsuitable in size, location, intention** and will forever change this small coastal Town.

# SAY NO!!!! DENY THE APPLICATION

We the undersigned are asking the Zoning Board of Appeals to DENY the Comprehensive permit to build a Cluster Development of 136 units on the top of Shingle Place Hill. Shingle Place Hill is a wooded Sanctuary, surrounded by conservation land, wetlands and a source of our drinking water. The Development Proposed by SLV ( Strategic Land Ventures) and currently in front of the ZBA has many **RED FLAGS** that should not be overlooked and validate the denial of the permit. Please see the reasons below and sign!

## SAY NO!!!! DENY THE APPLICATION

We the undersigned are asking the Zoning Board of Appeals to DENY the Comprehensive permit to build a Cluster Development of 136 units on the top of Shingle Place Hill. Shingle Place Hill is a wooded Sanctuary, surrounded by conservation land, wetlands and a source of our drinking water. The Development Proposed by SLV ( Strategic Land Ventures) and currently in front of the ZBA has many **RED FLAGS** that should not be overlooked and validate the denial of the permit. Please see the reasons below and sign!

- Catastrophic destruction to Shingle Place Hill by clearing acres of trees and excessive blasting.
- Irreversible damage to the surrounding conservation land, wetlands, natural wildlife habitats and contamination to our **DRINKING WATER!**
- **19 Waivers** ( a clear indicator this is a bogus project) have been requested by the developer to **bypass our local bylaws** that protect the very intact environmental integrity of our Town.
- 800 additional passes of traffic will pass on School street, a walking and biking route to the Town, schools, parks and beach.
- Traffic study shows **this project will exacerbate traffic congestion and strain the Town.**
- Single entry access to the site and development poses major safety issues.
- This project is **unsuitable in size, location, intention** and will forever change this small coastal Town.

## Petition against 40B Development in Manchester by the Sea

**239** have signed. Let's get to 500!

**At 500 signatures**, this petition is more likely  
to be **featured in recommendations!**

Stop 40B Manchester-by-the-Sea  
#saveourdrinkingwater #noblasting  
started this petition

***\*please do NOT donate, positive action requires  
ONLY online signature\****

**Strategic Land Ventures (SLV) is before the  
Zoning Board of Appeals to construct a 136 unit  
cluster development on the top of Shingle Hill  
Place on School Street. This project will forever  
change the Town and is not a solution to  
affordable housing.**

**The proposed development is surrounded by  
conservation land, wetlands, and Sawmill Brook,  
a source of the town's drinking water.**

The developer has requested **22 waivers**, a clear  
indicator this is not a site that should be developed,  
due to the **massive impacts this project** will have  
on our **drinking water** and **abutting protected  
conservation.**
